

XIV. Photographers and Video

During the mass or ceremony, the liturgy is primary, and any picture/video taking that interferes with prayer and worship is inappropriate and is **NOT** allowed.

In all cases, the use of additional or accessory lighting is prohibited.

The photographer/videographer is not permitted in the sanctuary (the front of the church where the altar is) nor walk across or in front of the sanctuary during the service. No photographic equipment may be set up in the sanctuary. The designated areas are the side aisles, the balcony and on either side of the sanctuary: namely the areas in front of the statue of Mary and in front of the chapel. The centre aisle may be used during the procession and recession only.

The wedding coordinator will contact the photographer/videographer about these guidelines.
